Wireframes:

<p>Events near you:</p> 	<p>Workouts in your area:</p> <div data-bbox="828 304 1258 525"> <div>1</div> <div>2</div> <div>3</div> <div>4</div> <div>5</div> <div>6</div> </div>					
<p>Users searching for workouts near you:</p> <div data-bbox="251 724 600 913"> <div></div> <div></div> <div></div> <div></div> </div>	<p>Messaging</p> <table border="1"> <tr> <td>Chris: 1 unread message</td> </tr> <tr> <td>Bob</td> </tr> <tr> <td>Jane</td> </tr> <tr> <td> </td> </tr> <tr> <td> </td> </tr> </table>	Chris: 1 unread message	Bob	Jane		
Chris: 1 unread message						
Bob						
Jane						

Hooks Needed:

1. Each of the images in the events page should link to its respective event page
2. The area workouts should each link to an information page
3. User page icons should link to user profile pages
4. Messaging page will link to each correspondence when the name is clicked
